

Purely People (UK) Limited – Environmental Policy

Purely People (UK) Limited is committed to saving and protecting the environment.

Materials used in our training courses are recycled wherever possible. We use email communication for contacts and agreements, invoicing and the distribution of course notes thus, avoiding paper materials and postage wherever possible.

At our own place of work we make use of energy saving devices, including low energy lighting throughout and power saving I.T devices. Our own materials used in the office are recycled, such as printer cartridges and paper. Our employees wherever possible make use of public transport over the use of a motor vehicle for distance travel.

One of our Directors takes responsibility for keeping up to date with environment issues associated with business in an effort to maintain and take advantage of the latest initiatives and opportunities to further save the environment. Furthermore, our Director ensures we comply with relevant environmental legislation.

Jim Hicks and Lisa Capaldi
Directors of Purely People (UK) Limited.
